

# CELLEY Hello, World.

# About Celly

Celly is an Italian brand, established in 1998, and has become one of the most innovative brands in the mobile phone accessories market. Celly specializes in the production and distribution of high-quality accessories for smartphones, tablets, and laptops.

In a world where technologies have become essential tools for communication and connection in our daily lives, Celly offers accessories that can help people amplify the potential of the technological devices they are surrounded by.

Objects that want to improve people's lives, in every moment of the day, H24, at home, in the office, while traveling and during leisure time and that are characterized by an entirely Italian design and style.

Today, Celly is a proprietary brand of the Esprinet Group and, thanks to an international distribution network is present in Italy and in more than 40 countries around the world including Europe, Asia and Africa.

**Hello, World!**

# Brand values

In a world where technologies have become essential tools of communication and connection in our daily lives, Celly offers items that can help people amplify the potential of their electronic devices as a friend they can rely on 24/7.

Always attentive to current fashions and consumer demands, constantly evolving, it offers design products in which Italian style, **great quality and careful technological research coexist.**

With a catalog of more than **1,000 different products** – For *protection, charging, audio, utility, sports, photo, leisure and gadgets* – Celly products are designed to accompany people in every moment of the day, whether at work or at leisure.

Celly provides users with a world of possibilities!

**The wall chargers Up features the same minimalist design and a clean aesthetic, for a homogeneous and recognisable collection.**

# Main features

Care is taken in the choice of materials and details, for a more premium look

Ultra-compact dimensions, which make all models convenient even for travel

GaN technology for faster and more efficient charging

# GaN technology

GaN stands for gallium nitride, a semiconductor that can **deliver high performance** without producing excessive heat, an ideal combination for tech chargers as it allows for a large amount of electricity to pass through **in a small footprint**.

# What can you recharge?

## 20 WATT

**Smartphones:** Ideal for modern devices with fast charging

**Wireless Earbuds**

**Smartwatches**

**Small power banks**

## 30 WATT

**High-Speed charging for Smartphones:** Great for phones that support ultra-fast charging.

**Tablets:** Suitable for devices with medium-capacity batteries.

## 45 WATT

**Ultra-Portable Laptops**

**Tablets:** rapid charging

**Smartphones:** even faster charging for compatible devices.

**Powerful Accessories:** High-capacity power banks.

## 65 WATT

**High-Performance Laptops**

**Lightweight gaming laptops:** can power entry-level gaming laptops with low energy requirements.

**Professional Tablets**

**Smartphones and Tablets:** Lightning-fast charging for compatible devices that can handle higher power.

Device Compatibility: Devices regulate the maximum power they can accept. For instance, if a device supports a maximum of 20W, it won't benefit from a 65W charger.

UPTC1USBC20W/CTL

## 20W wall charger with 1 USB-C port + Lightning cable

- GaN technology for faster and more efficient charging
